## THE CHALLENGES OF FINDING THE FIRST JOB

### Limited jobs locally

In any given town, the number of recruiters is typically limited, so entry-level jobs are hard to come by. And even when they do, the competition is fierce.

### Absence of requisite skills

Students who are pass-outs of school or college don't usually have the necessary skills to be productive at work, and can get rejected for that reason.

### No Mentorship

Students who are pass-outs of school or college don't usually have the necessary skills to be productive at work, and can get rejected for that reason.

# THE SOLUTION: THE TIMESPRO APPROACH

Enrol fresh graduates and alumni from schools and colleges across India

Empower them with skills and tools to hone their potential, making them Day-1 ready for the job

Get them placed at companies across India with matching demand

**IS IT A SKILLING  
PLATFORM?  
IS IT A JOB PORTAL?  
IT IS BOTH!**

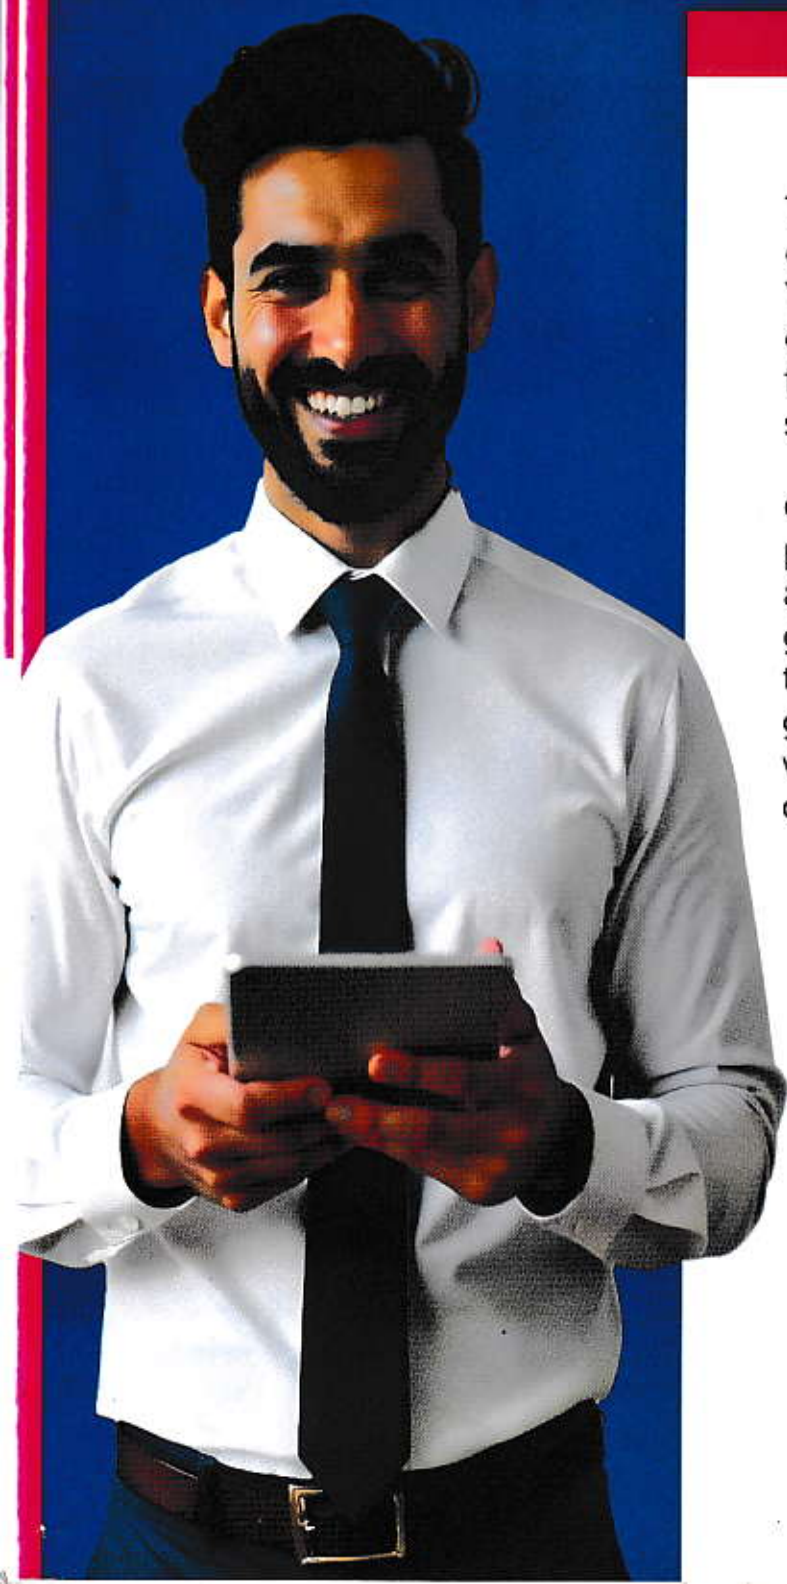

A skilling platform without placement assistance means plenty of skilled candidates but without the guidance and the opportunity to land a job. On the other hand, a job portal without any skilling or upskilling service means that there are a lot of candidates vying for jobs but without the required skills to get picked. Either way, a half-service is not quite effective.

TimesPro, on the other hand, bridges this gap in the market by offering candidates both – skilling and recruitment services. This unbeatable offering that gives students access to free tools and courses, acts as the springboard for their success. And this is only the beginning. TimesPro aims to be a lifelong learning companion, supporting individuals from their initial placement through continual upskilling and beyond.

With access to **FREE** career tools and courses.

And when they get hired, they have the edge of being productive from the get-go.
